How AI is helping rural African farmers

Over 22,000 farmers in Zambia are now using AgriPredict, an AI-backed mobile app to get instant information about plant diseases and weather patterns, that would before only have come from agriculture experts and meteorologists.

Sutton Trust US Programme

What is it?

The Sutton Trust US Programme is designed to support students from state schools across the UK to explore US study and access leading universities.

It includes two virtual residentials before all students spend a week in the US staying on campus at a leading US university and visiting a variety of other American universities.
